Above Food Announces Partnership with BNQ Management to Accelerate Canadian Retail Growth

Regina, Saskatchewan (February 28, 2022) — Above Food Corp. (Above Food), a first-of-its-kind, vertically integrated, plant-based food company, announced today its latest partnership with BNQ Management ("BNQ"), a leading sales broker for the Canadian retail market based in Vancouver, British Columbia.

This announcement complements Above Food's binding transaction agreement with plant-based, simple meals leader, Atlantic Natural Foods and its brands **Loma Linda™** (plant-based, shelf stable and ready-to-eat meals), **TUNO™** (plant-based tuna alternative), **Neat™** (egg and meat replacers) and **Modern Menu™** (plant-based food service), which can be found in 25,000 retail locations across 30 countries. Above Food's family of brands also includes **Eat Up!™** (plant-based, gluten free, regenerative farmed oats, flours, baking mixes, bagels and pizza crusts), **Farmer Direct Organic™** (certified organic, plant-based pantry staples), and **Culcherd™** (certified organic, plant-based dairy alternatives).

"The partnership with BNQ will allow us to accelerate our wholesale retail distribution in Canada, which is a key part of our growth strategy," said Martin Williams, Above's President and Chief Innovation Officer. "With 9 consumer brands, representing 12 consumer segments, we needed a partner that had the structure, scale, and sophistication to represent the entire portfolio. We are excited to partner with BNQ to help us expand our already significant distribution footprint, to reach even more consumers at the store-shelf level in retailers across the country."

"This partnership is exciting on a number of fronts, Above's portfolio of differentiated brands, the values driven culture, the overall seed to fork value proposition, and the alignment to our own mission and values," said BNQ's Founder and CVO Benjamin Walker. "Consumer and retailer interest in plant-based foods that are sustainably produced, is only gaining momentum, and this partnership will deliver products to more consumers coast-to-coast."

BNQ MANAGEMENT

BNQ Management provides consulting and brand management services for the natural food industry. We focus on bringing innovative brands to market.

BNQ was born out of the idea that in business we could prosper while focusing on Environmental Stewardship and supporting our communities in positive ways. Typically, as a society we have built businesses, then looked at how we can be better stewards of the environment while giving back to our communities. We feel that this model is in need of a perspective shift. www.bnqmanagement.com
