Non-GAAP Financial Measures

This press release includes certain financial measures not presented in accordance with generally accepted accounting principles in the United States (“GAAP”), including, but not limited to Adjusted EBITDA, Adjusted EBITDA Margin and certain pro forma financial data, in each case presented on a non-GAAP basis, and certain ratios and other metrics derived therefrom. The Company defines Adjusted EBITDA as earnings before interest expense, taxes, depreciation and amortization, adjusted for non-recurring items that are infrequent or abnormal to the company’s normal operations resulting from discontinued operations, extraordinary items, unusual or infrequent items, and changes resulting from changes in accounting policies/principles, and Adjusted EBITDA Margin as Adjusted EBITDA divided by revenues. A reconciliation of certain of these non-GAAP financial measures to their most comparable GAAP measure is set forth in the appendix of the investor presentation furnished with Bite’s Current Report on Form 8-K.

These non-GAAP financial measures are not measures of financial performance in accordance with GAAP and may exclude items that are significant in understanding and assessing the Company’s financial results. Therefore, these measures should not be considered in isolation or as an alternative to net income, cash flows from operations or other measures of profitability, liquidity or performance under GAAP. You should be aware that the Company’s press release of these measures may not be comparable to similarly-titled measures used by other companies. The Company believes these non-GAAP measures of financial results provide useful information to management and investors regarding certain financial and business trends relating to the Company’s financial condition and results of operations. The Company believes that these non-GAAP financial measures provide an additional tool for investors to use in evaluating ongoing operating results and trends in and in comparing the Company’s financial measures with other similar companies, many of which present similar non-GAAP financial measures to investors. These non-GAAP financial measures are subject to inherent limitations as they reflect the exercise of judgments by management about which expense and income are excluded or included in determining these non-GAAP financial measures. This press release also includes certain projections of non-GAAP financial measures. Due to the high variability and difficulty in making accurate forecasts and projections of some of the information excluded from these projected measures, together with some of the excluded information not being ascertainable or accessible, the Company is unable to quantify certain amounts that would be required to be included in the most directly comparable GAAP financial measures without unreasonable effort. Consequently, no disclosure of estimated comparable GAAP measures is included and no reconciliation of the forward-looking non-GAAP financial measures is included.
